## A MURDERED WOMAN

### Who was Found with Her Throat Cut.

### PRICE OF SILVER DECREASING.

### Wm. Blaney Convicted of Killing His Aunt.

### Members of the Iron and Steel Institute Entertained.

### A Murdered Woman.

By Cable and Associated Press.  
LONDON, Oct. 25.—The body of a  
woman found in South Hampstead  
locality last night shows a crime, but  
bears no resemblance to those com-  
mitted by "Jack-the-ripper." A  
medical examination proved that the  
woman did not belong to the White  
Chapel class. The body was that of a  
woman about thirty years of age and  
well clad. Her throat was cut and  
her skull fractured. All her pockets  
were empty. A perambulator con-  
taining a blood-stained rug was found  
near by. It is supposed it was used  
to convey the body, from the spot  
where the crime was committed to  
where it was found.

The body has been identified as the  
wife of a porter, Mrs. Hobbs, who left  
her husband yesterday, taking her  
child, whom she carried in the per-  
ambulator found near the place where  
the body was discovered. The where-  
abouts of the child is a mystery.

### A Satisfactory Test.

By Associated Press.  
WASHINGTON, Oct. 25.—Diagrams of  
the first target practice on the new  
cruiser Philadelphia have just reached  
the Navy Department. The practice  
was at Gardiner's bar, October 4th,  
with six-inch, three-inch and one-inch  
rapid-fire guns, and the tests were  
remarkable. At one range of 1,000  
yards sixty of the sixty-two shots  
lodged in an exact vertical line ex-  
tending twenty feet above the water  
line, which means that every one of  
them would have hit an ordinary war  
vessel in very nearly the same place.  
As the ship and guns were new, this  
first trial is regarded as a satisfactory  
demonstration of the quality of our  
ordnance and the ability of our gun-  
ners.

### Being Entertained.

By Associated Press.  
WASHINGTON, Oct. 25.—The mem-  
bers of the Iron and Steel Institute,  
who have been on a tour through the  
South, began to arrive at Washington  
last night, and came in large numbers  
this morning. They were taken in  
charge by a committee and taken to  
hotels. After a short rest they were  
escorted to the Patent Office, where  
they evinced much interest in the de-  
tails of the American patent system.  
They then visited the Postoffice De-  
partment and called on the Postmas-  
ter-General. The program for the  
day includes visits to other executive  
departments, a reception at the White  
House at 3 o'clock, and a promenade  
concert at the Arlington Hotel this  
evening.

### A Verdict of Murder.

By Associated Press.  
SARATOGA, Oct. 25.—This morning  
the jury in the case of William  
Blaney, on trial for the murder of his  
aunt, brought in a verdict of murder  
in the first degree.

### A Further Decline.

By Cable and Associated Press.  
AMSTERDAM, Oct. 25.—The price of  
fine silver has further declined to 85  
guilders per kilo.

### Railroad Consolidation.

By Associated Press.  
BOSTON, Oct. 25.—At a meeting of  
the Atchison Directors on Friday the  
proposed acquisition of the Colorado  
Midland Railway was fully considered  
and approved and the contract of pur-  
chase agreed to. As a basis of agree-  
ment the Colorado Midland stock was  
placed at a valuation of \$50 and the  
Atchison stock at \$45. This requires  
88,889 shares of the Atchison to ab-  
sorb the entire issue of the Colorado  
Midland. Two cash payments were  
provided for, as follows: Ten dollars  
for each share of Colorado Midland  
at the time of its deposit with the  
Trustees, and \$10 per share at any  
time in one year.

Director Baring said the Colorado  
Midland purchase was approved yes-  
terday, and an official statement will  
soon be made.

"Beyond this," he said, "you can  
say absolutely that the Atchison does  
not contemplate the purchase of a  
mile of railroad property anywhere  
and has no negotiation for any rail-  
road purchase. You can say this,  
most emphatically, that the stories  
from the West of a contemplation of  
railroad extensions are without founda-  
tion. The Atchison is not buying or  
building roads; it is in a strong po-  
sition, has a balance from its re-or-  
ganization fund and is not borrowing  
a penny."

### A Popular Frenchman.

By Associated Press.  
MONTREAL, Oct. 25.—The Comte de  
Paris continues to create enthusiasm  
here. This morning large crowds  
congregated as he passed to visit the  
religious institutions. It is estimated  
that 20,000 people cheered him at the  
depot last night. His first visit this  
morning was to the Archbishop. The  
city has fairly gone wild with excite-  
ment over him. The French papers  
praise him most highly.

La Minerva, a leading organ,  
states that Canada is for all time at-  
tached to the House of Orleans, which  
has done so much for Canada.

L'Etandard says the French mon-  
archist cause is still uppermost in the  
hearts of all French-Canadians, and  
the demonstration yesterday  
crushes republican hopes.

### A Stockmen's Association.

By Associated Press.  
ST. LOUIS, Oct. 25.—For some time  
past there has been a rumored forma-  
tion of a strong association of cattle  
men to control the market for their  
stock, and get out of the clutches of  
the middle men and speculators.

T. D. Andrews, one of the largest  
stock raisers in Texas and Colorado,  
yesterday admitted that the scheme  
is not only under consideration, but  
that the organization is almost accom-  
plished. During September private  
circulars were sent to all the leading  
cattle men, asking them to assist in  
forming the association. The replies  
received were universally favorable,  
and it is certain that in the spring a  
strong association will be formed.

### Complaint of Injustice.

By Associated Press.  
NEW YORK, Oct. 25.—In the Pro-  
gresso Italiano Americano is a dis-  
patch from Washington stating that  
the Italian Legation there upon re-  
ceiving official reports from the Italian  
Consul at New Orleans, called the at-  
tention of the State Department to the  
proclamation of the Mayor of New Or-  
leans, which, they claim, is an unjust  
accusation. Blaine, it is said, has tel-  
egraphed the Governor of Louisiana.

### In Want of Immediate Relief.

By Associated Press.  
TOPEKA, Oct. 25.—The settlers in  
the western part of Oklahoma are  
without supplies, and their wives and  
children are without clothing. Much  
suffering and starvation will ensue un-  
less speedily relieved.

### Died on a Train.

By Cable and Associated Press.  
LONDON, Oct. 25.—Lapping, Chair-  
man of the Liverpool Stock Exchange,  
died this morning on the train while  
going to business.

statesman still run Washoe. If not,

## INCENDIARY FIRE.

### Speaker Reed Talking in Illinois.

### TWO MORE RAILROAD WRECKS.

### A Pacific Coaster Robbed by Confidence Men.

### Arrival in Port of a Missing Ocean Steamer.

### A General Shaking Up.

By Associated Press.  
CAMERON (W. Va.), Oct. 25.—Gov-  
ernor Hill and party, accompanied by  
T. S. Riley, Chairman of the Demo-  
cratic State Committee, Governor  
Fleming and others, left Wheeling  
this morning over the Baltimore &  
Ohio Railroad, and were to have  
stopped at all stations between Wheel-  
ing and Harper's Ferry to allow the  
Governor to make addresses. The  
program, however, was interfered with  
by a collision at Moundsville.

His train was about starting, when  
Engineer Wells heard a warning note  
from the engineer of the Chicago ex-  
press which told him that a train was  
approaching on the same track.  
About fifty feet ahead of where the  
Governor's train was standing a wide  
and low highway bridge spans the  
railroad tracks, making it impossible  
to see approaching trains on the other  
side of the bridge. About twenty-five  
feet behind the Governor's train an  
accommodation train running between  
Wheeling and Cumberland came to a  
stand.

When Engineer Wells noticed the  
approach of the Chicago express he  
immediately reversed his engine,  
backing his train, but the Chicago  
express was moving at so high a rate  
of speed that it soon caught up to the  
Governor's train and crashed into it.  
The cow-catchers of both trains were  
demolished, as were the platforms of  
three coaches. Governor Hill's train  
was thrown back on the accommoda-  
tion, and the cow-catcher of that  
locomotive was smashed.

Behind the accommodation train  
was a heavily loaded freight train,  
and the trains together were thrown  
back on that with a slight force, with  
no damage to the latter, except the  
cow-catcher was torn away.

Had the Governor's train consisted  
of ordinary coaches it would have  
been crushed like an eggshell between  
the two heavy trains. As it was, both  
of these cars escaped without even a  
scratch.

The accident was due to the failure  
of the air-brakes to work on the Chi-  
cago express.

After a delay of two hours at  
Moundsville two parlor cars were at-  
tached to the rear of the accommoda-  
tion train, and it proceeded.

### Another Wreck.

By Associated Press.  
READING (Pa.), Oct. 25.—The Read-  
ing express this morning ran into three  
loaded coal cars half a mile from Potts-  
town. The coal cars were wrecked,  
the locomotive was derailed and the  
tender telescoped the smoking car.  
The escape of the passengers from  
death was miraculous. Joseph Mar-  
kowitz, on one of the coal cars, was  
killed; John Marks, skull fractured;  
engineer Heller, leg broken; Thos  
Welsh, fireman, badly scalded; David  
Refsnyder of Lebanon, badly cut, and  
Thomas Humes of Reading, leg  
crushed. The passengers were badly  
shaken up.

### An Incendiary Fire.

By Associated Press.  
PEPPERELL (Mass.), Oct. 25.—It has  
been discovered that yesterday's fire  
was incendiary. The alarm wires  
were cut and other means used to pre-  
vent the prompt appearance of the  
engines. No cause is known.

### Arrived All Right.

By Associated Press.  
NEW YORK, Oct. 25.—The steam-  
ship Oldam, from Rotterdam, which  
it was surmised might be the vessel  
reported ashore near Rockaway last  
night, arrived off Sandy Hook at 8:20  
this morning.

### A Confidence Victim.

By Associated Press.  
BOSTON, Oct. 25.—George Fitzpat-  
rick of Seattle, Wash., who arrived  
here to-day, was swindled out of \$200  
by a confidence man before he had  
been in the city thirty minutes.

### The Ohio Campaign.

By Associated Press.  
PITTSBURGH, Oct. 25.—Blaine, who  
spent the night in this city, left for  
Canton, Ohio, this morning, where he  
will address a political meeting in the  
interests of McKinley to-night.

### A Premature Report.

By Associated Press.  
WASHINGTON, Oct. 25.—The state-  
ment telegraphed from Canada upon  
the authority of a British Member of  
Parliament that it had been resolved  
to submit the Behring Sea fisheries  
dispute to arbitration is premature so  
far as it may be taken to imply a com-  
pleted agreement on the part of both  
Governments. It is learned that cor-  
respondence on the subject is still in  
progress, but there are hopeful signs  
that a satisfactory settlement may be  
reached at a comparatively early day.

### Speaker Reed in Illinois.

By Associated Press.  
ROCKFORD (Ill.), Oct. 25.—The city  
is alive with Republicans from all  
over the northern part of the State to  
hear Speaker Reed. He arrived at  
noon. At one o'clock a mass meeting  
was held on the fair grounds, Reed  
delivering the principal address. Later  
he left for the island, where he  
will spend to-night.

### A Cure for Sick Headache.

This distressing complaint is due to an  
inactive or sluggish liver with constipated  
bowels which derange the stomach and  
disturb the nervous system, causes dizzi-  
ness and an oppressive dull pain in the  
head, often so severe as to prevent all rest  
or sleep. One of Dr. Gunn's Improved  
Liver Pills will relieve you of all the pain  
and misery and a few more doses will cor-  
rect the liver and stomach and regulate  
the bowels. While these pills are small,  
easily taken, and mild and gentle in their  
action there is no medicine made that will  
so effectively cure sick headache. 25 cents

Legislature, who voted to fasten upon  
this State the lottery scheme, which  
cost the honest taxpayers \$100,000 to defeat,  
and which has done more to injure the  
prosperity of Nevada than all the evils which  
ever occurred in its history, are now before  
the public soliciting their suffrage, among  
the number being M. D. Foley, one of the  
nominees for State Senator for Washoe  
county, who was the strongest advocate of  
the lottery bill in the Senate, and who  
submitted a copy of the Senate Journal of Janu-

What They are Good For. Brandt's Pills are the best medicine known.

First—They are purely vegetable, in fact a medicated food.

Second—The same dose always produces the same effect—other purgatives require increased doses and finally cease acting.

Third—They purify the blood.

Fourth—They invigorate the digestion and cleanse the stomach and bowels.

Fifth—They stimulate the liver and carry off vitiated bile and other depraved secretions.

The first two or three doses tell the story. The skin becomes clear, the eyes bright, the mind active, digestion restored, constipation is cured, and animal vigor is recruited and all decay arrested.

Brandt's Pills are sold in every drug and medicine store, either plain or sugar coated.

JOE JOSEPHS.

The Republican Nominee for Clerk of the Supreme Court.

Joe Josephs, the Republican nominee for Clerk of the Supreme Court, has been a resident of Nevada since 1860, in which year he arrived on the Comstock, a boy thirteen years of age. Since his arrival in Nevada he has occupied various positions, from that of pick boy to the miners to places of

trust, where intelligence and ability were required. His many years labor in the mines has given him a wide acquaintance with the miners, and business connections have made him extensively known to the general public. And further, at the 1873 session of the Nevada Legislature, he was elected Engineering Clerk of the Senate and served in this capacity during the legislative session to the satisfaction of every member of that body. He, as a young man, stood by the organization of the Miners' Union and was made to suffer for his loyalty to his comrades by losing his place. Through his own exertions he has acquired an education by diverting his leisure time to study, and he is indorsed by all who know him as thoroughly competent for the important position to which he aspires.

THE MISSING LINK.

The Railroad to Santa Barbara, Cal., To Be Completed.

The Santa Barbara extension of the Coast Division of the Southern Pacific Railroad will be built, and work will be commenced by the company at once. An agreement to build from Santa Margarita to Elwood, 127 miles, was signed Thursday by C. P. Huntington, Leland Stanford and C. F. Crocker upon receiving and undertaking that the right-of-way would be turned over to the company. This agreement is the result of the conference held Thursday by the above railroad managers with C. H. Phillips, manager of the West Coast Land Company, and R. E. Jack of San Luis Obispo and W. M. Eddy and J. W. Calkins of Santa Barbara. These gentlemen formed the committee appointed by the Railroad Convention held at San Jose a few months ago for the purpose of offering such inducements to the Southern Pacific Company as would secure the completion of the coast road, and open a through line from San Francisco to the East by way of Santa Barbara and Los Angeles. The result of the convention's work is the agreement made to build the road.

A New Horse Disease. A disease is prevalent among horses in the vicinity of Calverly, Wash., which closely resembles lung fever, although treatment for that ailment is unavailing. It is resultant from swallowing the dust from dry lead and silver ore, and is a lead-poisoning of the blood. The afflicted animal will stand in the same position for from two to three days, with the ears cold and drooped and limbs cold to the second joint, and seldom rise from the first fall. An examination of several victims of the disease showed the throats to be lined with small cancers or boils, while the lungs were merely a decayed, discolored mass, resembling so much clotted blood.

A Furloughing Fault-Finder. The Reno GAZETTE's cut of the Republican nominee for Governor does not bear the slightest resemblance to R. R. Colcord.—Carson Tribune.

But the GAZETTE's biographical sketch of his life has "resemblance" enough for the Tribune to steal and run without the slightest credit.

An Immense Rosebush. What is probably the largest rose bush in the world grows alongside the residence of Dr. E. B. Matthews in Mobile, Ala. It was planted in 1813, and now covers the entire house and neighboring trees.

A LEVEL HEAD.

The Advantage of Presence of Mind in an Emergency.

During the late strike on the New York Central Railroad, the militia were ordered to be in readiness in case of a riot, but they were not called out. In an interview, Gov. Hill said the troops were not to be called upon except in case of an emergency. The emergency had not arisen, therefore they would not be ordered out. He remarked that this was the first great strike with which he had had experience, and he did not propose to lose his head; the only point at which there had then been serious trouble was at Syracuse, and there a deputy-sheriff had lost his head and precipitated an encounter.

The strike continued several weeks, and there was riotous action at various points along the road, but the civil authorities were able to cope with it without calling on the militia.

The test of a man's real ability comes when an emergency arises which makes a hasty call on his good judgment and discretion. The man who retains his presence of mind, maintains his equanimity and exercises sound discretion at such critical junctures, is to be relied on and will be put to the front. Men with level heads have the staying qualities which do not falter in the face of danger. Otis A. Cole of Kinsman, O., June 10, 1890, writes: "In the fall of 1888 I was feeling very ill. I consulted a doctor, and he said I had Bright's disease of the kidneys and that he would not stand in my shoes for the State of Ohio." But he did not lose courage or give up; he says: "I saw the testimonial of Mr. John Coleman, 100 Gregory St., New Haven, Conn., and I wrote to him. In due time I received an answer, stating that the testimonial that he gave was genuine and not overdrawn in any particular. I took a good many bottles of Warner's Safe Cure; have not taken any for one year."

"Weak and weary" describe the condition of many people debilitated by the waste of time by disease or overwork. Hood's Sarsaparilla is just the medicine needed to build up and strengthen the body, purify and quicken the sluggish blood, and re- it was at a meeting in the Third Ward, and as the Convention of the United States line of high tide is the boundary between land and water, and that an Act of Congress cannot be construed as to authorize the entry of mud flats, or tide lands bare at low tide, but subject to daily overflow.

WHY DID HE GO? A St. Louis Merchant's Trip to the Postoffice, and the Result.

California's last sensation is beginning to take hold of St. Louis. J. V. S. Barrett, the commission merchant of 122 and 124 North Commercial Street, was one of the first to test Joy's Vegetable Sarsaparilla in sick headaches. Its effect was such a gratifying surprise that he went over to the post-office and told his friend, Thos. P. Culkin, sup't of the registry division, who was also worried with headaches. The following letter details his friend's experience also:—

Postoffice, St. Louis, Feb. 20, 1890. J. V. S. BARRETT, Esq.: Dear Sir: You ask me, Did I act on your advice? I did, and have to thank you for years I have suffered from indigestion and headache, and purchased a bottle of Joy's Vegetable Sarsaparilla. I had finished it I could get almost anything with impunity, and had almost since rarely troubled with a headache of any kind, for which I give due credit to your advice and Joy's Vegetable Sarsaparilla. Yours, etc., THOS. P. CULKIN, Sup't Registry Division, Postoffice.

MISCELLANEOUS.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder ABSOLUTELY PURE

PERSONALS.

J. B. Mallon, the Virginia City merchant, returned from below this morning.

Captain Merrill arrived from the Bay this morning on his way to Lassen county, Cal.

Colored P. C. Hyman, Superintendent of the Tuscara Water Works, passed east to-day.

E. S. Spring of the San Francisco Stock Report arrived from below to-day on his way to Candelaria, where he has mining interests.

E. Miller, a San Francisco stock operator, who is largely interested in the Alta mine, arrived from below to-day on his way to the Comstock.

P. M. Bowler, District Attorney of Esmeralda county, went east to-day as far as Winnemucca, where he will meet R. K. Colcord and party, with whom he will visit Paradise valley.

Finally Located. A Los Angeles dispatch says the line of the Santa Fe Company's road to San Francisco has been finally located for seventy miles north of the Atlantic & Pacific Railway. Beginning at Rogers, the water-tank station about twenty miles east of Mojave, the final survey has been completed to Crain's Lake, seventy miles from Rogers, on the north side of Antelope valley.

A Hopeless Task. An exposition will be opened in the Philadelphia Academy of Fine Arts next month to raise funds for Christianizing Chinamen living in that city. It is a very worthy undertaking, and the pity is that it is not likely to accomplish anything adequate. China is the only place for the missionaries to work with the hope of Christianizing Chinamen.

Federal Aid Wanted. The Columbia Waterway Association is in annual meeting at Oregon City. A strong memorial to Congress has been adopted urging an ample appropriation for the completion of the locks of the Cascades, of the portage railway at the Dalles, and the jetty at the mouth of the Columbia river; also the improvement of the Willamette river.

A Tide-Land Decision. The United States Circuit Court at Tacoma, in the tide-lands case there, holds that under the land laws of the United States the line of high tide is the boundary between land and water, and that an Act of Congress cannot be construed as to authorize the entry of mud flats, or tide lands bare at low tide, but subject to daily overflow.
